## **Abstract**

This article presents the impact analysis of investment attractiveness of the Republic of Tatarstan on fixed investments of eight national leading companies. The authors have developed the impact assessment methodology. Using correlation and regression analysis, the authors revealed a statistically significant dependences and character of the relationship between the regressors and the dependent variable. The obtained results allow one to range the investment attractiveness of Tatarstan according to their impact on fixed investments of the leading national companies and offer recommendations to improve the investment attractiveness of the Republic of Tatarstan for balanced territorial development. © IDOSI Publications, 2013.
